# The Day After Tomorrow

Par Take That

*Album : Nobody Else - Everything Changes - Take That & Party*

Only one way to describe, this is deceit I am hiding

Never been here before, never wanna see here again

I've strayed from a long term lover

And found greater lust from another

My conscience is keeping me awake and shouting at me all night

**So I'll tell her the day after tomorrow, maybe today**

**So I'll tell her the day after tomorrow, or is that too late**

Being loved is a big responsibility,

You can never give too much back

You know it's so easy to walk away and leave that lady flat

My life's feeling crowded with possessions, am I lucky or sad

Is it time to turn away and lose everything I had

**So I'll tell her the day after tomorrow, maybe today**

Moving in circles, decisions chasing me round and round  
Why's life never easy, or do we make it hard for ourselves  
And when we find love we need to look for something new  
'Cos when it's all over, you always feel the need to be loved  
Like she always loved you
