# Loved You A Little (Acoustic)

Par Taking Back Sunday

*Album : Loved You A Little (Acoustic)*

**If I was just a lie to you**

**Well, you were less than that to me**

**Never loved you a little**

Bit by bit, you built this all in your head

And you knew goddamn well

Lays like these, they lean miss more than swing

And what makes you think that what we had was love not meaningless?

And if I'm the fool, what's that make you?

**Don't tell me (don't tell me why)**

**(Don't tell me) you can't sleep at night (you can't sleep)**

I know now, I won't ever (I know now, I know now, I won't ever do this again)

If I was just a lie to you

Well, you were less than that to me

Never loved you a little

Loved you a little

Tell me who you were falling for

When we were lying on the floor

Never loved you a little

Try not to think of me at all

When you're lonely and exposed

All I really know is

Tales like these tragically end badly (still blame me, either way)

I was too far gone to say

I'm tired, it's a little too late

If I'm the fool, then what are you?

**Don't tell me (don't tell me why)**

**(Don't tell me) you can't sleep at night (you can't sleep)**

I know now, I won't ever (I know now, I know now, I)

(Won't ever do this again)

**If I was just a lie to you**

**Well, you were less than that to me**

**Never loved you a little**

**Loved you a little**

**Tell me who you were falling for**

**When we were lying on the floor**

**Never loved you a little**

**Never loved you at all**

**Never loved you at all**

And what made you think that what we had was love?

**And if I was the fool, then what does that make you?**

What made you think that what we had was love?

**And if I was the fool, then what does that make you?**

What made you think that what we had was love? (If I was just a lie to you)

(Well you were less than that to me) and if I was the fool

Then what does that make you? (never loved you a little, loved you a little) oh

**Tell me who you were falling for**

**When we were lying on the floor**

**Never loved you a little**

**Loved you a little**

**If I was just a lie to you**

**Well, you were less than that to me**

**Never loved you a little**

**Loved you a little**

**Tell me who you were falling for**

**When we were lying on the floor**

**Never loved you a little**

**Loved you a little**
