Blood, Guts & Rock 'n' Roll (2018 Remaster)

Par Tankard

Album : Stone Cold Sober (2018 Remaster)

One, two, three

Pins of blood on my complex

Make me big and strong

Then I get my chainsaw

Then I get my axe

I am gonna slaughter

'Cause I need it to relax

I'm just kidding

Completely kill, I'll smash your head

We're a band that sings of death

Violence, blood and all that shit

Acid chains, eating brains

Maniacs and killers

Deadly music is our trade

Murder, bloodshed

Body parts, a gory mess

Dripping from your stereo

Slashing is the way to go

Blood metal

It's my life

Killing

Hurt and pain

Blood metal

There's nothing better

Blood and guts and rock'n'roll

Give me psychotic murder

Must be fun to be insane

Songs about cannibals

Roasting victims

Human barbecue

Fingers for the cheesesteak

Grilling legs and thighs

Won't you come and join us?

We will cut you down to size

Mutilation is the business of our show

Sacrifice of human life

See it in our video

Making cash with our trash

Everybody wants some

Live a sadist fantasy

Murder, bloodshed

Body parts, a gory mess

Dripping from your stereo

Slashing is the way to go

Blood metal

It's my life

Killing

Hurt and pain

Blood metal

There's nothing better

Blood and guts and rock'n'roll

Give me psychotic murder

Must be fun to be insane

I'm so scared

Cut myself in the vein

Blood is dripping now

Someone's got to help me

Think I'm gonna die

I am tough and blue

But this pain, it makes me cry

Lethal lyrics

Ugly words and violent flip

We're the band that sings of death

Violence, blood and all that shit

Acid chains, eating brains

Maniacs and killers

Deadly music is our trade

Murder, bloodshed

Body parts, a gory mess

Dripping from your stereo

Slashing is the way to go

Blood metal

It's my life

Killing

Hurt and pain

Blood metal

There's nothing better

Blood and guts and rock'n'roll

Give me psychotic murder

Must be fun to be insane

Blood metal

It's my life

Killing

Hurt and pain

Blood metal

There's nothing better

Blood and guts and rock'n'roll

Give me psychotic murder

Must be fun to be insane
