Dancing With Your Ghost

Par Teddy Swims

Album : I've Tried Everything But Therapy (Complete Edition) [Explicit]

Ay

Dreamin' of brighter days, sinkin' into your ocean

Imagin' your face, one hit of serotonin

I got some ties that I'll never cut loose

I gotta find a way to bottle my emotions

But when I need a taste, I crack the bottle open

I catch myself whistlin' the same tune

Ay, memories of summertime

They help me survive

Oh, I'm dancin' with your ghost again

Twistin' me in circles slippin' through my hands

Crystal clear, it's like you never left

Paint the walls and chase the shadows on the floor

Dancin' with your ghost

Still tryna find a way, still tryna find a reason

No one can imitate the way you hurt my feelings

Tangled and tied to the way that you move

Yeah, no, it don't matter where you are

I feel the love below

You say you love me when my eyes are closed

I'm dancin' with your ghost again

Twistin' me in circles slippin' through my hands

Crystal clear, it's like you never left

Wet the knife and run the blade across the stone

Dancin' with your ghost

Ooh

Ay, memories of summertime

They help me survive

Oh, I'm dancin' with your ghost again

Twistin' me in circles slippin' through my hands

Crystal clear, it's like you never left

Only get to feel your love when I'm alone

Dancin' with your ghost

Oh

Oh, dancin' with your ghost
