Free Drugs

Par Teddy Swims

Album : I've Tried Everything But Therapy (Complete Edition)

Bathroom stalls, and dollar bills, and backstage mini bars

Always find a way to find a way into my heart

Friends of friends and mannequins, and people that I don't know

The more of them start showing up, the more I feel alone

Shit does somethin' to your brain

When people that you love keep sayin' that you changed

Hurts, but you'll never know lookin' at my face

Yeah, I ain't never bought nothin' for the pain

'Cause I get free drugs

Probably why she say she's in love

She's so pretty, I'm so messed up

But I ain't one to complain

'Cause I get free drugs

Put that smile right on our tongue

Dance all night 'til my tour bus come

Come and take me away

It's 6 a.m., one eye opened, she's askin', "Can I come?"

Back on through her town real soon, so we can have more fun

Ay, I make a lot of mistakes, I fall in love in a day

Big eyes, little waist, takin' shots for the shakes

I'm at home on the range (ooh)

Really wish, really wish that I could stay

'Cause I get free drugs

Probably why she say she's in love

She's so pretty, I'm so messed up

But I ain't one to complain

'Cause I get free drugs

Put that smile right on my tongue

Dance all night 'til my tour bus come

Come and take me away

Go and shake somethin' (shake somethin')

Yeah, it feels a little better with your waist on it (waist on it)

Yeah, it feels a little better when you take some (take some)

But it makes it real hard to walk away from (away from)

Go and shake somethin' (shake somethin')

Yeah, it feels a little better with your waist on it (waist on it)

Yeah, it feels a little better when you take some (take some)

But it makes it real hard to walk away from (away from)

Go and shake somethin' (shake somethin')

Yeah, it feels a little better with your waist on it (waist on it)

Yeah, it feels a little better when you take some (take some)

But it makes it real hard to walk away from (away from)

Go and shake somethin' (shake somethin')

Yeah, it feels a little better with your waist on it (waist on it)

Yeah, it feels a little better-
