I Can Hear Music

Par The Beach Boys

Album : Greatest Hits

This is the way

I always dreamed it would be

The way that it is, oh, oh, oh

When you are holding me

I never had a love of my own

Maybe that's why when we're all alone

I can hear music

I can hear music

The sound of the city, baby

Seems to disappear, oh when

I can hear music

Sweet, sweet music

Whenever you touch me baby

Whenever you're near

Loving you

It keeps me satisfied

And I can't explain, oh no

The way I'm feeling inside

You look at me, we kiss and then

I close my eyes and here it comes again

I can hear music

I can hear music

The sound of the city, baby

Seems to disappear, oh, when

I can hear music

Sweet, sweet music

Whenever you touch me baby

Whenever you're near

I hear the music all the time, yeah

I hear the music, hold me tight now, baby

I hear the music all the time

I hear the music

I hear the music (baby)

I can hear music

I can hear music

The sound of the city, baby

Seems to disappear, oh, when

I can hear music

Sweet, sweet music
