Never Forget This Song

Par The Black Crowes

Album : Lost Crowes Disc 1, The

I could lay my head down on your floor
Empty my pockets to make room for more
I can make it bleed or just make it sore

Well I

I've got to sing along

Never forget this song

I've got to sing along

Never forget this song

Some day I will find my home in the ground
Hand on my bottle and I looked around
Some day I'll leave this place for some holy ground

Well I

I've got to sing along

Never forget this song

I've got to sing along

Never forget this song

I want you to sing along

Never forget this song

I've got to sing along

Never forget this song

I've got to sing along

Never forget this song

I've got to sing along

Never forget this song
