Settle Petal

Par The Buoys

Album : Lusture

Am I supposed to read your mind

Anytime you don't wanna talk?

It's like squeezing water out of a stone

When it comes to you

We could sit around ignoring the obvious

I don't get why you gotta hide it all

I regret to inform you that option is no longer available

Pick the petals, they love me not

I'm sure you think about it now and then

I'm busy tryin' to see if you have common sense

Pick the petals, they love me not

The petals, they love me not

I got trouble for you

I got trouble for you

I got trouble for you, ah

If we could stop and press rewind

Anytime I wanna hear your thoughts

I got a thorn in my side this time

When it comes to you

There's an end and a beginning, it's obvious

I don't see why you gotta runaround

And you're finally beginning to talk

But nothing valuable is coming out

Pick the petals, they love me not

I'm sure you think about it now and then

I'm busy tryin' to see if you have common sense

Pick the petals, they love me not

The petals, they love me not

I got trouble for you

I got trouble for you

I got trouble for you, ah

So let me know

I got trouble for you

I got trouble for you

I got trouble for you, ah

So let me know

Pick the petals, they love me not

I'm sure you think about it now and then

I'm busy tryin' to see if you have common sense

Pick the petals, they love me not

The petals, they love me not

I got trouble for you

I got trouble for you

I got trouble for you, ah

So let me know

I got trouble for you

I got trouble for you

I got trouble for you, ah

So let me know
