# Long Time Gone

Par The Civil Wars

*Album : A Place at the Table*

Look out, Ma, and look out, Pa

Look at that horizon

Something's out there kickin' up dust

Always coming fast

Look out, sister; look out brother

River's gonna be risin'

Somethin' we've been waitin' for

Oh, it's here at last

**It's been a long, long time comin'**

**It's been a long, long time comin'**

Let's all sing, let's all dance

Stomp our feet in that red grave

C'mon out of those ole, brown fields

**Watch them turn to gold**

**Watch them turn to gold**

**It's been a long, long time comin'**

**It's been a long, long time comin'**

**It's been a long, long time comin'**

**It's been a long, long time gone**

The wait is over, things have changed

And not a moment too soon

We've all prayed for a single drop of rain

And now, a storm's comin' through

**It's been a long, long time comin'**

**It's been a long, long time gone**

**It's been a long, long time comin'**

**It's been a long, long time gone**
