# I Played the Fool

Par The Clovers

*Album : The Clovers*

Why try to hurt me? I've been fair to you

You could have told me that our affair was through

**You played the game but, darling, I played the fool**

Why did you leave me after all we've planned?

Don't try to tell me, I'll never understand

**You played the game but, darling, I played the fool**

**(I played the fool)**

**I'll drink a toast to our memory**

**I chase it down with a tear**

**I'll wash away that memory**

**It's my only souvenir**

**Why did you leave me? Everybody knows**

**Friends tried to tell me, "That's the way it goes"**

**You played the game but, darling, I played the fool**

**(I played the fool)**

**I'll drink a toast to our memory**

**I chase it down with a tear**

**I'll wash away that memory**

**It's my only souvenir**

**Why did you leave me? Everybody knows**

**Friends tried to tell me, "That's the way it goes"**

**You played the game but, darling, I played the fool**
