# Dimensional Love

Par The Dangerous Summer

*Album : Coming Home (Deluxe)*

Dimensional love

Still can't explain the chasing

Watch the crashing of thoughts

The science of giving in

I get lost for days in my heart

The seasons are never ending

Slip through cracks that I saw

The cautions of giving all you have away

**Don't mind me if I break**

**Been leaning on the world around**

**I give more than they take**

**No time to lie down**

**I think I'm on the verge of it**

**No time to slow down**

The symptoms are giving up

**Still finding my sound**

**And taking on the world with it**

**Lost to be found**

**There's nothing to giving up**

**And I won't fail you now**

Inventional love

The message forever bending

Trace the past to my faults

The time I could never give

I can't stop the waves of my heart

The feeling's get overwhelming

Let me drown in my flaws

The lessons of giving all you have away

**Don't mind me if I break**

**Been leaning on the world around**

**I give more than they take**

**No time to lie down**

**I think I'm on the verge of it**

**No time to slow down**

The symptoms getting on

**Still finding my sound**

**And taking on the world with it**

**Lost to be found**

**There's nothing to giving up**

**And I won't fail you now**

I won't fail you now

**No time to lie down**

**I think I'm on the verge of it**

**No time to slow down**

The symptoms to giving up

Still finding my sound

And taking on the world with it

Lost to be found

There's nothing to giving up

And I won't fail you now
