The Get Up Kids - 11 - Close to Home

Par The Get Up Kids

Album : Something to Write Home About

Summer swallowed us whole,

Waited for you to come around.

Every word you wrote

Down, we read it over to know...

Would they believe in us now?

There's no shame like no

Sound from sources hits close to home.

Everything that we've found

Says make your own destiny. But

You're unaware that you

Should be scared.

Maybe you'll learn from mistakes that we make.

We're not waiting forever.

We know you'll never be there.

We're not waiting forever,

If you get out

See you there.

Summer swallowed us whole,

Waited for you to come around.

There's no shame like no

Sound from sources hits close to home.

Everything that we've found

Says make your own destiny. But

You're unaware that you

Should be scared.

Maybe you'll learn from mistakes that we make.

We're not waiting forever.

We know you'll never be there.

We're not waiting forever,

If you get out

See you there.

You're not awake

As I'm aware.

Woo

Maybe we had all you

Figured absolutely wrong.

There's been a misunderstanding

We've had all along.

Maybe we had all you

Figured absolutely wrong.

(Maybe we had all you

Figured absolutely wrong.)

You can read about

(You can read)

About it when we're gone.
