Hey Willy (1998 Remastered Version)

Par The Hollies

Album : The Air That I Breathe - The Very Best Of

Hey Willy, your mother calls you Billy

Your father calls you silly

But you really are a pretty one

Hey baby, you're dressing like a lady

The fellows call you Sadie

But you really are a pretty one

You don't care

What they say about your hair

'Cause the bad man's smiling

Every time he sees you comin', yeah

Willy is the singer in a rock 'n' roll band

Every time he shows his face

It's just to put away a grand, oh yeah

Willy's gonna show them now

No, no, no, no

Willy's gonna go somehow

My name's Willy, gonna turn on the lights

Playing rock 'n' roll music till' the early, early night

Can't stop jamming to the rhythms in your feet

Listen to the drummer, yeah, listen to the beat, oh yeah

Willy's gonna show them now

No, no, no, no

Willy's gonna go somehow

Hey Willy, your mother calls you Billy

Your daddy calls you silly

But you really are a pretty one

Hey baby, you're dressing like a lady

The fellows call you Sadie

But you really are a pretty one

You don't care

What they say about your hair

'Cause the bad man's smiling

Every time he sees you comin', yeah

Willy is the singer in a rock 'n' roll band

Every time he shows his face

It's just to put away a grand, oh yeah

Willy's gonna show them now

No, no, no, no

Willy's gonna go somehow
