You Baby

Par The Lovin' Spoonful

Album : Collector's Edition, Vol. 1

You know I've been wantin' you

My whole life through

And now that I'm your guy

I'm gonna live and die for only you

Baby, baby, now you're gonna know

All the ways I plan to thrill you so

You're gonna see

I'll save all the love in me

Just for you (you), baby

You (you), baby

You (you), baby

Only you

Whoa-oh, only you

Could've made me wait this long

Wantin' your kiss

And now you're really mine

I'll make up all the time

You've made us miss

Baby, baby, now that it's all right

I'm gonna hug and kiss you every night

You're gonna see

There's a lifetime of love in me

Just for you (you), baby

You (you), baby

You (you), baby

Only you

Whoa-oh, only you

Baby, baby, now that it's all right

I'm gonna hug and kiss you every night

You're gonna see

I'll save all the love in me

Just for you (you), baby

You (you), baby

You (you), baby

Only you

Whoa-oh, only you

You (you), baby

You (you), baby

You (you), baby

Only you

Whoa-oh, only you
