King of No One

Par The Most Serene Republic

Album : Underwater Cinematographer

Crowds of people are invading my mind

Even in my sleep

Why don't they go away?

My reign ended a while back, a while back

Oh, my reign ended a while back, a while back

Oh, my reign ended

I get up like it always does then I take it off

Running down the street

Before the front door takes a beat

Yelling,? I am the king of no one?
