The Night Is On My Side

Par The Rubens

Album : Hoops (Deluxe Version)

The night is on my side

And I'm young enough to fall inlove

And be all starry eyed

With anyone I find

Yeah

The night is on my side

And it's young enough that for the time being

Time is on my side

She says she loves the moonlight

And the way it pulls the tides

But it's just daylight in disguise

And it will lead to al demise

Yeah

The night ain't on your side

And come to think of it

Neither am I

I won't say you ain't special

But you ain't nothin' new

Maybe it's just the lateness

And just something to do

Don't say I ain't special

Cause there ain't nothin' more cruel

We just get blowny at nine and stony

But who cares?

The night is on our side

The night is on our side

The night is on our side

It's on our side

...

The night is on my side

A suck up bunch just spark with lust

An infamous supply

Darlin' don't shy

Yeah

The night is on our side

As you fall for me I fall for my own lies

...

I won't say you ain't special

But you ain't nothin' new

Maybe it's just the lateness

And just something to do

Don't say I ain't special

Cause there ain't nothin' more cruel

We just get blowny at nine and stony

But who cares?

The night is on our side

The night is on our side

The night is on our side

It's on our side

...

I won't say you ain't special

But you ain't nothin' new

Maybe it's just the lateness

And just something to do

Don't say I ain't special

Cause there's nothin' more cruel

We just get blowny at nine and stony

But who cares?

The night is on our side

The night is on our side

The night is on our side

It's on our side

It's on our side

The night is on our side

It's on our, It's on our, It's on our side
