Watchman

Par The Sandmen

Album : Beauties And Beasts

Baby, baby, I'm the watchman

I watch you every day

I watch you from a milky way

I know where you go

I know where you stay

Baby, baby, I'm the watchman

I'm watching every step you take

I'm watching you from miles away

Know everything about your day

I am here all the time

I am here all the time

Make sure you're safe

Although I'm so far away

Make sure you're fine

Listen baby to your watchman

I'm here to lead you through

Listen to that inner voice

I'm here to help you in your choice

Trust me baby, I'm your watchman

I'm watching everything you do

No one else and only you

I exist to see you through

I am here all the time

I am here all the time

Make sure you're safe

Although I'm so far away

I am here all the time

I am here all the time

Make sure you're safe

Although I'm so far away

Make sure you're fine

Quiet baby, I'm the watchman
And the watchman never sleeps
I watch you through the night
I guide you to the morning light
Sleep on baby, I'm the sandman
I can put you back to bed
I'll rest your weary head
And make your dreams so sweet

I am here all the time

I am here all the time

Make sure you're safe

Although I'm so far away

I am here all the time

I am here all the time

Make sure you're safe

Although I'm so far away

Make sure you're fine
