Seen you in the mirror when the story began and  
I fell in love with you I love yer mortal sin  
Your brains are locked away but I love your company  
I only ever leave you when you got no money  
I got no emotions for anybody else you better understand  
I'm in love with myself myself  
My beautiful self  
A no feelings no feelings for anybody else  
Hello and goodbye and a runaround Sue  
You follow me around like a pretty pot of glue  
I kick you in the head you got nothing to say  
Get out of the way cos I gotta getaway  
You never realise I take the piss out of you  
You come up and see me and I'll beat you black and blue  
Okay I'll send you away  
No feelings for anybody else  
Except for myself my beautiful self dear  
Ain't no moonlight after midnight  
I see you stupid people out looking for delight  
Well I'm so happy I'm feeling so fine

**I'm watching all the rubbish you wasting my time**

I look around your house and there's nothing to steal  
I kick you in the brain when you get down to kneel  
And pray you pray to your god  
Your daddy's gone away  
Be back another day  
See his picture hanging on your wall
