In My Body

Par The Smashing Pumpkins

Album : CR-04

Hold silent, you were my violent snow

In my life, just for the moment

And then the young die, so you can die

I was alive, I was alive in my body

You'll never find me, you'll never pull me in

In my body, the lonely creatures

The lonely creatures scream

Junes of cast left tired in their bones sleep

Burned alive, wasted sunsets

Haunted my tunnel light right through my clothes

I was alive, I was alive in my body

You'll never find me, you'll never pull me in

I was alive, I was alive in my body

You'll never find me, you'll never pull me in

In my body, the lonely creatures

The lonely creatures scream

In my body, in my body

In my body, you

In my body, in my body

In my body, you

In my body, in my body

In my body, you
