In the Shadows

Par The Stranglers

Album : Black And White (Extended Edition 1988)

When you're walking on the streets at night

You turn around and die of fright

What's that in the shadows?

What's that in the shadows?

Walking down the streets at night

Turn around and you can die of fright

Walking on the streets at night

Turn around and die of fright

What's that in the shadows?

What's that in the shadows?

Is it a dog?

Is it a cat?

Is it a dog?

What do you think of that?

When you're walking on the streets at night

Turn around and die of fright

What's that in the shadows?

What's that in the shadows?

Is it a dog?

Is it a cat?

Is it a dog?

What do you think of that?

When you're walking on the streets at night

Moving, shiny, bright

Walking on the night

When you're walking on the streets at night

Look around you

Look around you

When you're walking on the streets at night

When you turn around and die of fright

Who's there in the shadows?

What's that in the shadows?

What's that in the shadows?

Look around you
