# Starlight [Radio Edit]

Par The Supermen Lovers

*Album : Ultimate Dance*

The sun is rising up on the east side

A chance for everyone

I've been dreaming of the city for a long time

Far from my home town

**(You) I see**

**(Will see) My dream**

**(Your dream) For real**

**(Come true)**

**(You) I will**

**(Will rise) Will rise**

**(Above) Above**

**(The rules)**

**Heart is pure and thoughts are clear (Love, release our mind)**

**Not going to mess around (You are what you want)**

**Mum and Daddy would be so proud (Time is taking lies)**

**City please don't let me down (You are what you mean)**

**Starlight, can you give me the fame? (Starlight)**

**Can you tell me the game, oh starlight? (Has what you need)**

**Starlight, can you give me the fame? (Starlight)**

**Can you tell me the game, oh starlight? (Has what you need)**

The time has come for me to be someone

A rich man, a superstar

And faith is all we need to be the one

Far from my own ground

**(You) I see**

**(Will see) My dream**

**(Your dream) For real**

**(Come true)**

**(You) I will**

**(Will rise) Will rise**

**(Above) Above**

**(The rules)**

**Heart is pure and thoughts are clear (Love, release our mind)**

**Not going to mess around (You are what you want)**

**Mum and Daddy would be so proud (Time is taking lies)**

**City please don't let me down (You are what you mean)**

**Starlight, can you give me the fame? (Starlight)**

**Can you tell me the game, oh starlight? (Has what you need)**

**And starlight, can you give me the fame? (Starlight)**

**Can you tell me the game, oh starlight? (Has what you need)**

**Starlight, can you give me the fame? (Starlight)**

**Can you tell me the game, oh starlight? (Has what you need)**

**Starlight, can you give me the fame? (Starlight)**

**Can you tell me the game, oh starlight? (Has what you need)**

**And starlight, can you give me the fame? (Starlight)**

**Can you tell me the game, oh starlight? (Has what you need)**

**And starlight, can you give me the fame? (Starlight)**

**Can you tell me the game, oh starlight? (Has what you need)**

(Starlight has what you need)
