Neon Roses (Paused)

Par The Technicolors

Album : Metaphysical

Neon roses after my mind

Wanna feel like you feel tonight

Tonight

Say your prayers and I'll be alright

Spit me up and I'll wonder why

'Cause I'll never see this place again

But I still can't find a malice

It's a thrill slow shot reaction

But I never knew you at all

Don't let it happen to ya

Neon roses after midnight

Starlet poses after your lie, oh no

So lay your head right next to my mind

Dream me in and out of your crimes

Tonight

'Cause we'll never see this place again

But I still can't find a malice

And it's a thrill slow shot reaction

But I never knew you at all

Don't let it happen to-

I never knew you at all, never knew you at all

Never knew you at all, I never knew you at all

I never knew you at all, oh no

I never knew you at all, never knew you at all

Never knew you at all, I never knew you at all

I never knew you at all, at all

Don't let it happen to you now

Slow down and wonder why we'll

Never see this place again

'Cause I still can't find a malice

It's a thrill slow shot reaction

But I never knew you at all

No, I never knew you at all

But don't let it happen, oh

I never knew you at all, never knew you at all

Never knew you at all, I never knew you at all

I never knew you at all, oh no

I never knew you at all, never knew you at all

Never knew you at all, I never knew you at all

I never knew you at all, at all
