Emergency

Par The Whispers

Album : And The Beat Goes On (Disc 2)

I never thought there'd come a time
When someone else would tap my line
On hold my woman's love i have
Expecting to still be mine, yeah
Time comes around
I'm knowing i should be there
Cause when i call her
A line that's always been clear
Is busy at the strangest hours
Operator got to have your help

This is an emergency

Please interrupt the line

He's trying to beat my time

Emergency

That's what i'm making, ooh

Tell her love is on the phone

I know i left her all alone

But this time i got my signals straight

When love calls she won? t have to wait

Try the line one more time

This woman is much too rare for me to give her up

Knowing that love's still here

Cause all at once it came to me

Now operator got to help me please

This is an emergency

Please won't you put me through

Or she'll have somebody new

Emergency

That's what i'm making

Cause my heart is achin', ooh... ooh...

This is an emergency

I don't care about the charge

I'm suffering from a broken heart

Emergency

In the name of love, yeah

So won't you help me out

This is an emergency

He's trying to beat my time

Emergency

In the name of love, ooh... ooh... ooh... ooh...

Yeah

Operator

This is an emergency

I don't care about the charge

I'm suffering from a broken

Yeah

That's what i'm making

Cause my heart is achin' for my baby

(This is an emergency) this is an emergency

Please interrupt the line

Cause he's trying to beat my time

Emergency, ooh

This is an emergency

Now you've got to put me though

Or she'll have somebody new, yeah
