Hello (feat. Keri Hilson & Attitude)

Par Timbaland (Shock Value)

Album : Shock Value

Ain't nobody think we were comin' like this, y'all

Y'all know what I'm talkin' about, homeboy

For all the pretty ladies out there, roamin' the streets

Got attitude, bad D, what up, what up, what up, what up

You know what I'm sayin'?

Ow, let me talk to y'all ladies

We on another level

Who you down with? I'm down with several

People that you can't clown with

Do the town with, and, and, and get-get down with

Hello

We on another level

Who you down with? I'm down with several

People that you can't clown with

Do the town with, and, and, and get-get down with

Hello

Baby, let me come and scoop you in the Benz

We can chill and lay back while I drop my top

If you want, you can bring a friend

I get it poppin' off, be glad you got involved

Girl, if you play your position, then all your problems solved

They show me love in every hood and every city I go

They say, "Timbo, you the best," and I say, "Baby, I know"

Two-tone Maybach when I slide up in it

Windows on my ride is tinted

Gotta pull the shades back and tell her, "Hello"

She wanna chill with a nigga

We can smoke, we can drink, just keep it real with a nigga

I got a plan, shawty, come get your man, shawty

Let me put it simple so you can understand, shawty

'Cause

We on another level

Who you down with? I'm down with several

People that you can't clown with

Do the town with, and, and, and get-get down with

Hello

We on another level

Who you down with? I'm down with several

People that you can't clown with

Do the town with, and, and, and get-get down with

Hello

Smooth with the flow, get-get-get you where you goin'

You already know, if you don't, then I'ma show

Look how I does that, they ain't lookin' at you

They lookin' at me, they be like, "What's that?"

Tryna get they buzz back

I got places to go and a whole lot of things to see

And I'ma be right here 'til y'all done got enough of me

Steady on my grind, tryna get it

Money on my mind, is you with it?

Tried to hold me down 'cause of they ego

Now they ain't around, but look at me, hello

We on another level

Who you down with? I'm down with several

People that you can't clown with

Do the town with, and, and, and get-get down with

Hello

We on another level

Who you down with? I'm down with several

People that you can't clown with

Do the town with, and, and, and get-get down with

Hello

Hold macs on my nuts, keep bumpin' they chins

When they back for a second, I be fuckin' they friends

Give it to 'em real good, they be lovin' me then

Askin' a nigga, "Could I cut it again?"

Put a cigarette blow in the wind and bust in

Like one of the men finna ride in the rodeo

And every nigga in my clique gon' dig 'em down, nigga

You can ask every ho I know

I met a bitch up in Amoco

Cutie said she was thicker than the average ho

Yeah, you could see that ass from the

Front and them titties from the back

So I had to get at that ho, real talk

Cash flow stacked up, safe in the vault

Keep bitches out my face 'cause I know how they talk

Ain't savin' these hoes, ain't shit gettin' bought

Real-ass nigga, I don't know what they thought

I'm P-I-M-P, ten toes down

Bitch can't swim, bitch gon' drown

Bitch can't fly, I can't either

That's why a nigga get high off reefer

New millennium nigga in an old school Regal

Used to have hood rats, now I got beagles

A-L-A-B-A-M-A

You know I gotta send a shoutout to my people

We on another level

Who you down with? I'm down with several

People that you can't clown with

Do the town with, and, and, and get-get down with

Hello

We on another level

Who you down with? I'm down with several

People that you can't clown with

Do the town with, and, and, and get-get down with
