Tall Kids

Par TOLEDO

Album : Inertia

Couldn't sleep the night you took my hand and pulled me closer

When I felt your arms around my neck

The sun came up and followed us 'till the day was over

I walked home the tallest kid

You always find a way to spin my head in circles

I'll spend the day retracing every step

Sorry for the way I've hid under the surface

Is that an apology or just a misdirection?

Don't look back in vain

I will be there

Try to understand I'm in territory

Palm of your hand, your love is like water to me

I'm so afraid that they will come take it from me

I'm so afraid that they will come take it from me

Don't look back in vain

I will be there

All that joy in your name

Let them see it
