Climb That Hill Blues

Par Tom Petty

Album : Wildflowers & All the Rest (Disc 2)

Something threw me in the dirt

Kinda got my feelings hurt

Weed was burnin'

Somewhere down the wind

I had to get up

And climb that hill again

Little Lucy's such a doll

Liked to climb her garden wall

But she only sees me as a friend

I got to get up

And climb that hill again

I gotta bury my pride, drag this line

Over that hill one more time

Gotta get up in the morning, make my way

Over that hill again

Tempers flare

And the words are spok?n

You close one door

And another op?ns

You hear the music

And you're wondering

You got to get up

And climb that hill again

You got to get up

And climb that hill again

You got to get up

And climb that hill again
