Album : fake pills & real scars

(One more time)

Uh, Uh, Uh

Uh, Uh, Uh

Yeah, yeah

Huh

You know I make mistakes, know I'm still young and dumb

(Young and dumb)

Yeah, I'm still doin' pills until my body numb (My body numb)

I hate when you need me, when I can never come

I been up for two days, I'm off this X, I'm up before the sun

(Before the sun)

I can't do right, look, what I did, don't matter what I done

(What I done)

Can't see myself with no one else

Girl you know you the one (You the one)

It hurt my heart said, you ain't pregnant

Want you to have my son (My son)

I can be miles away, still think 'bout you

You on my mind in London (In London)

I think I shoulda' said the fact, that I ain't ready

Scared of suicide, prayin' and hope that I end up dead please

I hurt you but, ain't do it on purpose, girl I'm scared please

Uh, I been cryin' blood, look in my eyes, you might see a red sea

When I be gettin' high, I think of you

When you drunk, do you think of me? (Think of me)

I been fallin' deep in this depression

I want you to see with me (With me)

Know we connect different

Don't want you to leave, every time you link with me (Link with me)

Think we movin' fast, gave you my lean, and told you, "Drink with me"

Yeah, don't block me on everything, when you get upset (Get upset)

Middle school love, might still look away, when you get undressed (Uh)

You told me that I was gon' be a star

When I thought I was somethin' less (Somethin' less)

I twenty-five'd 23's back to back

I can feel it in my flesh (In my flesh)

When you not on my side, it eat me alive

Girl that shit got me stressed (Got me stressed)

You know i'll go live, and tell them I love you

Two times like Finesse (Like Finesse)

We both can't be liars

Our love gon' burn and turn into a mess (To a mess)

Ask me, how many times

I done been fucked up off pills, can't even guess (Uh)

I do wrong sometimes, but I love you the best

You tell me, you hate me, I go get high

Cause them words, hurt my chest (Hurt my chest)

If I went to college, I'm all in class

Writin' your name on desks (Writin' your name on desks)

I don't even wear no chains, a nigga die he still tryna touch my neck

(Boom, boom, boom)

Huh

You know I make mistakes, know I'm still young and dumb

(Young and dumb)

Yeah, I'm still doin' pills until my body numb (My body numb)

I hate when you need me, when I can never come

I been up for two days, I'm off this X, I'm up before the sun

(Before the sun)

I can't do right, look, what I did, don't matter what I done

(What I done)

Can't see myself with no one else

Girl you know you the one (You the one)

It hurt my heart said, you ain't pregnant

Want you to have my son (My son)

I can be miles away, still think 'bout you
