Tracy Lawrence - All Wrapped Up In Christmas

Par Tracy Lawrence

Album : All Wrapped Up In Christmas

Her mother called and wondered where we were

And why we didn't call her after church

I told her that we had to hurry home

'Cause this time of year there's always something going on

We gotta deck the halls

We gotta find that box of broken balls

That angel and that tub of tangled lights

Patch up the tree then fuss about where it oughta be

I hate she missed us but we're all wrapped up in Christmas

Ain't got time to watch a football game

We gotta listen to Bing and Elvis sing

It won't be long til Santa makes his run

I better hurry up and get everything done

I gotta sign those cards

I gotta get that reindeer in the yard

Hang off the roof and change them burned out bulbs

Gotta spend it all between Wal-Mart and the mall

It could get vicious cause we're all wrapped up in Christmas

Happy holidays

May joy and peace come your way

Our best wishes
