Eternity (Original Mix)

Par Trance Arts feat. Carie

Album : Discoteka 2013 Dance Club Vol. 122

Being here with no sense of time

Look at the ocean reaching the sky

Feeling near, want you close

The future will show what no one knows

Resting speechless in infinity

Crossing the universe, we're free

Satellites of the earth, my thought's only you

Crashing with you is all I can do

Stay in this moment eternally

The sun will see only you and me

All I want is eternity

When we're laying here, we'll make it real

Eternity, eternally

Eternity, eternally

Eternity, make it real

Eternally

Recover the breath that'll fade away

The cosmic surface, the sky turns grey

Keep breathing, stay with me

All I want for us is eternity
