We All Need Some Light

Par Transatlantic

Album : KaLIVEoscope [Radiant Rec., 3984-15349-2]

Some people think

Think they have none

They might as well stay down

Running in circles

Like bulls in a ring

'Til the sword finds it's way down

While the creep beats the rap on appeal

And the cop who can't stop

Shows the kids how to steal

And we all need some light now

We all need some light now

Yes, we all need some light now

Turn on your light and wash the darkness away

Hey you on the brink

Waiting to fall

To become human surplus

The movie's still shooting

You might still get the roll

And man it's all just a circus

But the clown left town long ago

Maybe he'll come back and give us a show

And we all need some light now

We all need some light now

Yes, we all need some light now

Turn on your light and wash the darkness away

And we all need some light now

We all need some light now

Yes, we all need some light now

Turn on your light and wash the darkness away
