Album : Blackout (feat. Steph Jones) (Remixes)

Two hungry hearts

A city divided

Pulled in the dark

So strong it was violent

Yeah, it was

You and me, you and me

Against the world

It was

You and me, you and me

Against the world

Don't you worry, baby

There's a fire for us

No, we're not goin' down in a blackout

Ooh ooh, ooh ooh

And if the stars above me

Crumble into dust

No, we're not goin' out in a blackout

Ooh ooh, ooh ooh

Ooh ooh, ooh ooh

Oh no, no, no

Airwaves underwire

Streets growing cold, cold

But we burn, burn brighter

'Cause it's like

You and me, you and me

Against the world

It's like

You and me, you and me

Against the world

Don't you worry, baby

There's a fire for us

No, we're not goin' down in a blackout

Ooh ooh, ooh ooh

And if the stars above me

Crumble into dust

No, we're not goin' out in a blackout

Ooh ooh, ooh ooh

Ooh ooh, ooh ooh

System's down, the system's down

But we'll make light in a blackout

System's down, the system's down

But we'll make light in a blackout
