Lord Of Swords

Par Tsjuder

Album : Desert Northern Hell

As the shadows rise

Black eyes watch the horizon grim

Five stars hold the pentagram (up so) high

The prince of murders arise

Behold

The deathbells of war chimes

As the apocalyptic storms of chaos approaches

Black unholy chapels and abyssic chasms

Unleash your ghouls and daemons

Upon the scorched earthï¿½

As the shadows rise

Stella Malaï¿½ Behold the black stars

Hear the warlocks chant in the wind

The betrayer of nations arise

Behold

The thundering drums of war

As the seraphim falls like dust from the heavens

When daemons rape the nuns

And witches burns the priests

It is the triumph of the blasphemous masses

Armageddon is finally here
