### Denim Deamon

Par Turbonegro

*Album : Ass Cobra*

I tried to be part of the scene  
Bought all the records and magazines  
But all the kids they put me down  
Laughed and said I was a clown  
Said they didn't want me around  
Made me feel so all alone

**But now I'm back with a bang**

**I've got my own leather gang**

**And all of them are men**

**And denim's back again**

**And I am, and I am**

**I am a denim demon**

**Got my own congregation**

**I am a saint for seamen**

**And I am, and I am**

**I am a denim demon**

**You've got my penis steaming**

**And your asshole screaming: Help!**

The day is black, the night is white

The disco sun, it shines so bright

Protruding buttocks left and right

I draw my sword prepared for fight

The stench of piss reveals your fright

Your asshole is in for a ride

**But now I'm back with a bang**

**I've got my own leather gang**

**And all of them are men**

**And denim's back again**

**And I am, and I am**

**I am a denim demon**

**Got my own congregation**

**I am a saint for seamen**

**And I am, and I am**

**I am a denim demon**

**You've got my penis steaming**

**And your asshole screaming: Help!**

**Outside of society, good head, good head**

**Outside of society, good head, good head**

**Outside of society, good head, good head**

**Outside of society, good head, good head**

Outside
