We're Gonna Make It

Par Twisted Sister

Album : You Can't Stop Rock 'N' Roll

Been fighting for so long

Don't know which way up is

Been stuck in ripped and burned

Till it feels like nothing

Our time will come

And when it's over and it's done

Those fools are gonna know

That we ain't bluffing

We're gonna make it

We'll reach the top

We're gonna make it

And then we're never gonna stop

The power of the people

Ain't been showin'

It's never what you know

It's who you know it

Sure it ain't right

But as the saying goes it's might

Not decide who stays behind

And who'll be going

We're gonna make it

We'll reach the top

We're gonna make it

And then we're never gonna stop

We're gonna make it

We'll reach the top

We're gonna make it

And then we're never gonna stop

Oh we're gonna make it

Come on man

Come on man

Ain't gonna stop until we drop
