Twilight Zone (We Feel Alright)

Par Two Unlimited

Album : Pulse (Disc 2)

R: First to the bass in to the jam

Then let the music take command

Back to back to another dimension

Stop the force and pay some attention

Music to party, music to dance

The new follow-up of public demand

Slick as five da la megaphone

Take you down to the Twilight Zone

R: Enter the clock and turn the body upside down

Grab the microphone it's upon the sound

You want more more you get

We're 2 Unlimited in effect!

Check up the sound and stop this distortion

When we get the fitness, here's another portion

Just lay back as we take control

Take you down into the Twilight Zone

CHORUS

A: This is the twilight zone

And you're not on your own

We take you to the twilight zone

It is the twilight zone

You better shake your bones

And come on down the twilight zone

A: Come on baby!

I'm gonna take you to the Twilight Zone

R: Have a good time, take a break

R: Hang with another first of the chapter

Straight to the heavyweight, for worst or better

Fishes in the way, found in the vicinity

Slamming DJ's with the rhyme capability

Listen to the jam as we go wild

Check your MC's versatile

Me and the lady howl megatone

Fuck you up in the Twilight Zone

A: Woow

A: CHORUS
