On With The Action

Par Ufo

Album : No Heavy Petting (vinyl)

Something going on at the corner of the block

It's the kids down there

They were startin' to rock

High black fever runnin' everyplace

When the greek kid pulled a knife

And pushed it in his face

Some girl makes it with a lover in the door...

As the ambulance pulls away,

She cries out more

And it's all night long, all night long

On with the action

You need the fastest legs alive

On with the action

If you can't run you ain't survive

On with the action

Mama's boy and teacher's pet...

On with the action

It's down our street, is it in yours yet

All the kids stand laughin'

They never had such fun

Then someone cuts a blind man who just can't make a run

And the queen who's been standin' behind the toilet door

His parents don't like boyfriends, call him a whore

But the minister's starin'

With his Bible in his hand

Was this god's children, he didn't understand

And it's all night long, all night long

On with the action

You need the fastest legs alive

On with the action

If you can't run you ain't survive

On with the action

And it's all night long, all night long

On with the action

You need the fastest legs alive

On with the action

If you can't run you ain't survive

On with the action
