11-World War III

Par Unwritten Law

Album : Blue Room

This is a question of the human

Race will this planet remain in

Space two world leaders get

In a fight we'll all be gone

In a flash of light

When I die for my country

I'll take no part in the destruction

From World War III

I have no answer not my

Decision and if I spoke no one

Would listen is this the end

Of history, why should I care

Why should I worry

When we die for our country

We'll take no part in the destruction

From world War III
