Logical Progression

Par Uriah Heep

Album : Sea of Light

(New perceptions)

You say her love has gone forever

And something has

Gone from your soul

It's left you so cold

Though you wish

You had the answer

The question is always untold

Always on hold

What's in the mirror

What do you see

It's a logical progression

When you think that

You lost all that time

It's all in your mind

What's in the mirror

What do you see

Lay down now and close your eyes

It's only just begun

'Cause mind and body

Flow in perpetual motion

Set free all your memories

They're tearing you apart

'Cause you know that

Love is the only direction

That reputation that you live by

Says something about what's inside

Nowhere to hide

There is no amount of heartache

That could ever

Wash over this burning

Forever learning

Look in the mirror

Will you do it all again

You got time on your side

You know you'll find

The truth within you

You got time on your side

As the seconds tick away

Love is waiting for you

You got time on your side

You say her love has gone forever

And the image has left you so cold

Still in your soul

There's no way

You're gonna turn back

You'll never wash over this burning

Forever learning

Look in the mirror

Will you do it all again

Lay down now and close your eyes

It's only just begun

'Cause mind and body

Flow in perpetual motion

You got time on your side

As the seconds tick away

Love is waiting for you
