# Logical Progression

Par Uriah Heep

*Album : Sea of Light*

(New perceptions)

**You say her love has gone forever**

And something has

Gone from your soul

It's left you so cold

Though you wish

You had the answer

The question is always untold

Always on hold

**What's in the mirror**

**What do you see**

It's a logical progression

When you think that

You lost all that time

It's all in your mind

**What's in the mirror**

**What do you see**

**Lay down now and close your eyes**

**It's only just begun**

**'Cause mind and body**

**Flow in perpetual motion**

Set free all your memories

They're tearing you apart

'Cause you know that

Love is the only direction

That reputation that you live by

Says something about what's inside

Nowhere to hide

There is no amount of heartache

That could ever

Wash over this burning

**Forever learning**

**Look in the mirror**

**Will you do it all again**

**You got time on your side**

You know you'll find

The truth within you

**You got time on your side**

**As the seconds tick away**

**Love is waiting for you**

**You got time on your side**

**You say her love has gone forever**

And the image has left you so cold

Still in your soul

There's no way

You're gonna turn back

You'll never wash over this burning

**Forever learning**

**Look in the mirror**

**Will you do it all again**

**Lay down now and close your eyes**

**It's only just begun**

**'Cause mind and body**

**Flow in perpetual motion**

**You got time on your side**

**As the seconds tick away**

**Love is waiting for you**
