Yeah.

I guess you've seen it,

Heard about it

Now you're writing, calling, texting me

Ohhh...

Like

You remember when we blah blah blah

Girl, I don't study history

Nooo... Nooo...

See I don't fuck with you

'Cause you never fuck with me

When I was all about you

You was all about running 'em streets

Hate to see it,

Now I made it

And you really don't mean shit to me

Nooo... No, no

So, every time I see your face

I'll forever do the same

Smile and wave,

Smile and wave,

Smile and wave,

Smile and wave

Girl, every time I see your face

I'll forever do the same

Smile and wave,

Smile and wave,

Smile and wave,

With a big fat fuck you, yeah, yeah, fuck you

With a big fat fuck you, yeah, yeah, fuck you

All this time

You could've been right here with me

But girl you chose to go

Ohh

And I'm not worth

To tell you right from wrong

But you should know that nobody loves a hoe

Nooo... Nooo...

See, I don't fuck with you

'Cause you never fuck with me

When I was all about you

You was all about running 'em streets

Hate to see it,

Now I made it

And you're really don't mean shit to me

No baby...

So, every time I see your face

I'll forever do the same

Smile and wave,

Smile and wave,

Smile and wave,

Smile and wave

Girl, every time I see your face

I'll forever do the same

Smile and wave,

Smile and wave,

Smile and wave,

With a big fat fuck you,

With a big fat fuck you

Smile and wave

Smile and wave

Smile and wave

Smile and wave

Smile and wave

Smile and wave

Smile and wave

Smile and wave

Wave, wave, wave

With a big fat

With a big fat

With a big fat
