An Act Of Darkness

Par Vader

Album : De Profundis

An act of darkness is in us

Holy times and sacred season sites

Oh, black hole empty God

Let them devour their own light

An elevenfold cross eclipse

Symmetric fourness not to be found

Brightness protons vibrate outside

The 10th Aire very unGod

Blind larvae of moonlight souls

Trapped in the saliva of Times

Root their lairs in mucus of the void

A name of none and nothing

An elevenfold cross eclipse

Symmetric fourness not to be found

Brightness protons vibrate outside

The 10th Aire very unGod

A non-form of all-forms is

The paradox of the Highest Monads

Haughty Lords, Gehenna below

Govern those who govern

An elevenfold cross eclipse

Symmetric fourness not to be found

Brightness protons vibrate outside

The 10th Aire very unGod
