# An Act Of Darkness

Par Vader

*Album : De Profundis*

An act of darkness is in us

Holy times and sacred season sites

Oh, black hole empty God

Let them devour their own light

**An elevenfold cross eclipse**

**Symmetric fourness not to be found**

**Brightness protons vibrate outside**

**The 10th Aire very unGod**

Blind larvae of moonlight souls

Trapped in the saliva of Times

Root their lairs in mucus of the void

A name of none and nothing

**An elevenfold cross eclipse**

**Symmetric fourness not to be found**

**Brightness protons vibrate outside**

**The 10th Aire very unGod**

A non-form of all-forms is

The paradox of the Highest Monads

Haughty Lords, Gehenna below

Govern those who govern

**An elevenfold cross eclipse**

**Symmetric fourness not to be found**

**Brightness protons vibrate outside**

**The 10th Aire very unGod**
