The Dream Is Over

Par Van Halen

Album : The Collection II 1986-1996

Psst, hey, come on man, wake up

Yeah

I see the power changin' hands

Risin' from the streets

A self-made businessman

Knows how the system can be beat

Oh, we're the lost generation

Have no place to go

The road to destruction

Is all we need to know

'Cause it's a rip-off

We're stepped on and cheated

We're flat stone cold lied to

We're not defeated, no

It's ah, easy money

It's a way out

Join the family

No middleman, no IRS

Your ticket out of poverty

Oh, we're the lost generation

I hold fate from a string

Lookin' for a direction

Reachin' out for anything

So, dream another dream

This dream is over

Dream another dream

This dream is over

Dream another dream

This dream is over

Over, yeah

So dream another dream

Ow

Ow, it's a rip-off

Stepped on and cheated

Flat stone cold lied to

We're not defeated, no

Dream another dream

This dream is over

Dream another dream

This dream is over, over (dream another dream)

Dream another dream

This dream is over, oh

Dream another dream

This dream is over, over, yeah (dream another dream)

Dream another dream

Dream another dream

Dream another dream

Oh, this dream is over (dream another dream)

Dream another dream (dream another dream)

Dream another dream
