Cherry Lips

Par Vanotek/Mikayla

Album : Dance Hits 2019

Cherry lips, white wine

Night gowns, you and I

Cherry lips and red wine

Cherry lips that were mine

Happy ever after, you never get it right

I follow my old patterns

Don't know how to disguise

I go after roses, left with the thorns

I always do the same but i guess I needed more

I know I was deceiving

It happens every time,

I thought that you were different

But you're just like other guys

But you don't seem to see it

There's no need to disguise

I know you won't believe it

But babe start reading the signs

Cherry lips white wine

Night gowns, you and I

Cherry lips and red wine

Cherry lips that were mine

Trying to find an explanation

For you in my imagination

Maybe I need some medication to get you out of my head

Happy ever after

Well I'm not surprised

Yeah you're still a player, play those games with those same lies

You go on with nonsenses

Still I can ignore

You always do the same

Been over this before

I know I was deceiving

It happens every time

I thought that you were different but you're just like other guys

But you don't seem to see it

I know you won't believe it but babe start reading the signs

Cherry lips white wine

Night gowns, you and I

Cherry lips and red wine

Cherry lips that were mine

Trying to find an explanation

For you in my imagination

Maybe I need some medication to get you out of my head

I'm not the jealous type

But baby now you crossed the line

Held hands that weren't mine

Tried acting like I was fine

Sweet talker all the time

You fooled me once but I won't

I won't no won't think twice

I'm done with being nice

Cherry lips white wine

Night gowns, you and I

Cherry lips and red wine

Cherry lips that were mine

Trying to find an explanation

For you in my imagination

Maybe I need some medication to get you out of my head
