# Control

Par VARIOUS ARTISTS

*Album : Who made this? vol.3*

Breathing, I am fading

I feel like I'm losing myself

Wanting, wishing

I could be someone I'm not

Just give me a mirror

That can show me who I really am

I will never really know

Drowning, engulfed by my past

I'm letting go

Beyond everything I wish I could be

I wish I could be

**(We lose control)**

**Like a pendulum**

**I forgot where I came from**

**(We lose control)**

**With the weight of the world**

**Swing me back and forth again**

**Like a pendulum**

**I forgot where I came from**

Darkness, I gave in

Now I'm picking up the pieces from my broken heart

**(We lose control)**

**Like a pendulum**

**I forgot where I came from**

**(We lose control)**

**With the weight of the world**

**Swing me back and forth again**

**Like a pendulum**

**I forgot where I came from**

**We lose control**

**American satan**

**We lose control**

**American satan**

**We lose control**

**American satan**

**We lose control**

**American satan**

**We lose control**
