If You Could Only See

Par VARIOUS ARTISTS

Album : Rolling Stone: New Voices, Volume 11

My love, you're always in my heart

My love, you're always in my heart

If I could have it all

I would choose to have your love

Don't you know

How my heart starts jumping When I see you smile

No matter where you go

I'll be there right by your side

Holding you in my arms so tenderly

Take My hand and look right into my eyes dear

You will see that you were meant to be my love

If I could live my life

The way I would like to be

I know I'll like to spend my whole life just holding you with me

I won't change any day

I won't change a single day

My love will always be waiting right here

Take My hand and look right into my eyes dear

You will see that you were meant to be my love

I'll be there

I'll be there when you need me

I'll be there

I'll be there my love you'll see

Don't you Know

My love for you lasts forever

You will always be there in my heart for me
