Self Control

Par VARIOUS ARTISTS

Album : Mix Techno&House

It was the one that after

My ex could be with moving direction

Ain't just an angel

Tighten up in a smooth seduction

Work for other girls you're here a moment

Oh, she likes to get on top

Finding out a definition of a sex sucker

Move a lot of style the way she walks around

To my town in the city hit off the ground

You take myself, you take my self control

You got me living only for the night

Before the morning comes the story's told

You take myself you take my self control

Another night another day goes by

I never stop myself to wonder why

You help me to forget to play my role

You take my self you take my self control

Oh, oh, oh, oh

What's father thought in the moonlight darkness

Just a genius and electric paper

Oh, nine that I don't thinks to get you

Trust you walking I'm moving with you too

Love is a thing that we got to deny

Took Her things and then she said goodbye

Something wrong with the things I said

I went downstairs I heard a voice that say

You take my self, you take my self control

You got me living, only for the night

Before the morning comes the story's told

You take my self you take my self control

Another night another day goes by

I never stop myself to wonder why

You help me to forget to play my role

You take my self

You take my self control

You take my self

You take my self control

You got me living only for the night

Before the morning comes the story's told

You take myself

You take my self control

Another night another day goes by

I never stop myself to wonder why

You help me to forget to play my role

You take my self

You take my self control

Oh,oh, oh, oh, oh

You take my self

You take my self control

Take my self

You take my self control
