*Album : The Rules of Attraction*

You can see her

Whenever it rains

From Rome to New Orleans

Dancing on the graves

Burden by the heart

And every single day her little life falls apartt

**She's out to look**

**So macabre and alone**

**She's close to hook**

**On her dying**

**Just like a gothic girl**

**Lost in the darken world**

**My lil' gothic girl**

Darkerside jewel are your razor cuts for real, baby

You can see

She's on her road to ruin

Stigmata from crucifiction

On her pale white skin

Tribal pagan art

She loves her tattooed egyptian mark

And every single day her love will tear us apart

**She's out to look**

**So macabre and alone**

**She's close to hook**

**On her dying**

**Just like a gothic girl**

**Lost in the darken world**

**My lil' gothic girl**

Always so dramatic, Christ, I want you, gothic girl

**Lost in the darken world**

**My lil' gothic girl**

Darkerside of jewel are your razorcuts for real, baby
