Tonight's The Night

Par VARIOUS ARTISTS

Album : Singers And Songwriters? Classics

Along the fields of straw and stover

Clocked in 'til the work day's over

Time's a gentle stream, longer than it seems

Patient is the night

How I long to see her face now

Her starry moonlit gaze now

I know she's never late, still anxiously I wait

Patient is the night

(Whistling)

I know she's never late, still anxiously I wait

Patient is the night.
