# Reality Check / Know You Better

Par Various

*Album : The Simply Fabulous \$1.99 New Music Sampler*

Simply understanding

You see me when no one's around.

Frustration

show's my patience.

It seems I'll never get this right.

Chorus:

To get to know you better.

To love you more than myself.

To give you everything;

all of me, all of me.

I am human.

I borrow this excuse for my pride

inconsistence;

independent.

It seems I'll never make this right.

**Repeat Chorus**

Waiting for a sign

to fall into my lap from the sky.

Pockets full of time;

It seems I've waited here forever.

**Repeat Chorus**
